Defining CDHP

- Financial Incentives to Control Utilization/improve health status
- Customized Benefit Design, including networks
- Self Service (decision support tools)
- Internet as a Key Enabler for decision-making
- Not just a product!
Forces Behind CDHP

• HEALTH CARE COST INFLATION
• REDUCE EMPLOYER COST/LIABILITY
• ENCOURAGE CONSUMER COST-CONSCIOUS BEHAVIOR
• EMPLOYER INTEREST IN RE-ENGINEERING HEALTH CARE
• PROVIDER BACKLASH AGAINST MANAGED CARE
Spiraling Health Care Costs

Average Annual Growth Rates
Health Insurance Premiums vs. Workers Earnings
Questionable Medical Spending

• 44,000 to 98,000 avoidable deaths each year
  Source: Institute of Medicine, 1999

• “Our study suggests that perhaps a third of medical spending is now devoted to services that don’t appear to improve health or the quality of care – and may make things worse.”
  Elliot S. Fisher, Professor of Medicine, Dartmouth Study, 2003
Health Status Determined Predominantly by Behaviors

- 6% - 14% of medical costs attributed to smoking
- 49% lower cost if:
  - Non-Smoker
  - Non-Obese
  - Engage in physical activity 3 days/week

HSAs

**Advantages of HSAs**
- Employee control of funds
  - fosters cost-conscious behavior, leading to lower insurance rates
- Portable
- Triple tax advantages
- No ERISA requirement
- Non-medical expense OK (long term care premium, dental, vision services, alternative care, etc.)

**Disadvantages of HSAs**
- Tied to HDHP
- Employer has no control over funds

Where Are Sterling HSA Funds Being Invested. . .

Liquid instruments 98%
(CDs, passbook accounts)

Possible conclusions:

• Clients not willing to risk first year’s deductible savings

• Deposit size too small to engage in investment planning/execution
Employer Funding of HSA...

Decision rests on:

- Size of employer group
- Expected savings from switching to CDHP
- Employer interest in speeding adoption of CDHP
Employer Contribution

• If savings realized through lower cost HDHP, employers often willing to share some or all of the savings with employees

• Employer contribution to employee’s HSA speeds adoption

• Over half of Sterling employer clients fund in one lump sum
CDHP Impact on Employees

Empowered but confused

- Need to invest time/energy to understand CDHP
- Will force transparency in pricing/outcomes
- Older employees likely to use savings accounts for asset accumulation/long term care needs
CDHP Impact on employers

- May need to provide financial subsidy to accelerate movement to CDHP, e.g., contribute to HSA
- Requires investment in ongoing education of employees
- For the short term, may need to provide employee support to navigate among choices
CDHP Impact on Providers

• Compel transparency in pricing/quality outcomes to attract patients

• Forced to deal with variations in outcomes

• Foster pay- for- performance programs

• Expect more direct-to-consumer advertising
Summary

- CDHP IN THE VANGUARD OF TRANSFORMING MEDICAL CARE FINANCING

- PROMISE OF COST SAVINGS/GREATER INDIVIDUAL ACCOUNTABILITY MUST BE TEMPERED BY NEED FOR EDUCATION/CONSUMER SUPPORT

- Empowered but confused consumers will retard growth

- PROVIDER COMPETITION AT THE CONSUMER LEVEL IS A GOOD THING

- WILL FORCE SHIFTS IN THE ROLES OF EMPLOYER/PROVIDER/PAYOR (NOT A BAD THING!)
